

Jasmin Trotter

Full Stack Web Developer

Summary

A passionate builder of full stack web apps. Current specialties are JavaScript, Node, and React. I want to contribute to the creation of useful products for individuals or organizations. Always teachable and constantly improving myself personally and professionally. Seeking a challenging environment that encourages my growth and strengthens my skills.

Experience

Full Stack JavaScript Developer

Academic Projects

STUDENT PORTAL

(built with JavaScript, Node, Express, React, Redux, MongoDB)

This is a full stack, responsive web application designed to allow ballet students to create an account and access their own dashboard to purchase classes and review a list of their purchase history.

JOIN CLASS

(built with JavaScript, Node, Express, MongoDB)

A responsive, full stack application for ballet students to sign up for class, view the schedule of classes, and cancel any current reservations.

QUOTUMBLR

(built with JavaScript, HTML5, CSS3, jQuery)

API hack: this responsive web application integrates with Tumblr and FavQ's.

Quotumblr chooses a random word from user's selected Tumblr post, then using FavQ's API, returns a quote containing that word.

All of the above projects can be viewed from jasmintr Trotter.github.io/portfolio/

Owner, Ballet Instructor

Ballet Body by Jasmin

Responsibilities:

- Create a welcoming and judgement-free environment for all bodies to learn ballet, by being sensitive to the needs of students from a broad range of ages, sizes, and abilities.
- Build and maintain website and manage social media presence, write online content and design graphics.
- Develop software to track customers, attendances, and class purchases.

Education

Thinkful

Completed a course on modern full stack JavaScript development. Learned industry best practices and practical software development standards with the mentorship of a senior web developer.

University of California, Berkeley

Degree:

B.A. in Interdisciplinary American Studies

Areas of Concentration: Gender and Dance

Activities:

- Teacher's Assistant - Level 1 Ballet
- Choreographer - Physical Education Dance Showcases
- Mentor - Sage Mentorship Program

Honors:

- Golden Key International Honour Society
- Dean's List Fall 2013
- Julia Payne Dance Scholarship 2014
- Graduated with Highest Honors in American Studies
